Life Perspectives offers a wide range of training opportunities for individuals and organizations committed to fostering a culture of hope and healing. These programs explore grief and loss after miscarriage and abortion, as well as other reproductive losses. Training equips leaders with knowledge and practical tools to help men and women know they are not alone and that there is a safe place for them to heal.

*"Those who suffer reproductive loss no longer have to suffer isolation in trying to cope with shame and grief."*

**Archbishop Salvatore Cordileone,  
Archdiocese of San Francisco**

## SAFE PLACE TRAINING

**FOR PASTORS, PRIESTS, DEACONS,  
SEMINARIANS & OTHER RELIGIOUS  
LEADERS**

One in four pregnancies ends in miscarriage and one in four women in the US will have an abortion by the age of 45. Although these losses occur very differently, the grief experience is similar and affects men, women, family members and friends. With our Safe Place Training course, you can bring hope and healing to hurting people who may be suffering alone.

Training will help broaden your understanding of grief and loss after miscarriage and abortion, providing you with essential knowledge, skills and empathetic listening tools. It will also help you explore how to be a safe place for hurting men and women, and provide practical resources to support those in your community.
