

Websites

Build a secure website that's easy to update.

eCatholic is the most trusted website platform in the world for Catholic parishes, schools, and dioceses.

Create a clean, mobile-friendly design

Our Catholic faith is beautiful. Your website will be too. Just select the design option that's right for you.

1. Free Themes

Choose a design from our growing library of beautifully designed Catholic themes - each with various color schemes.

2. Custom Designs

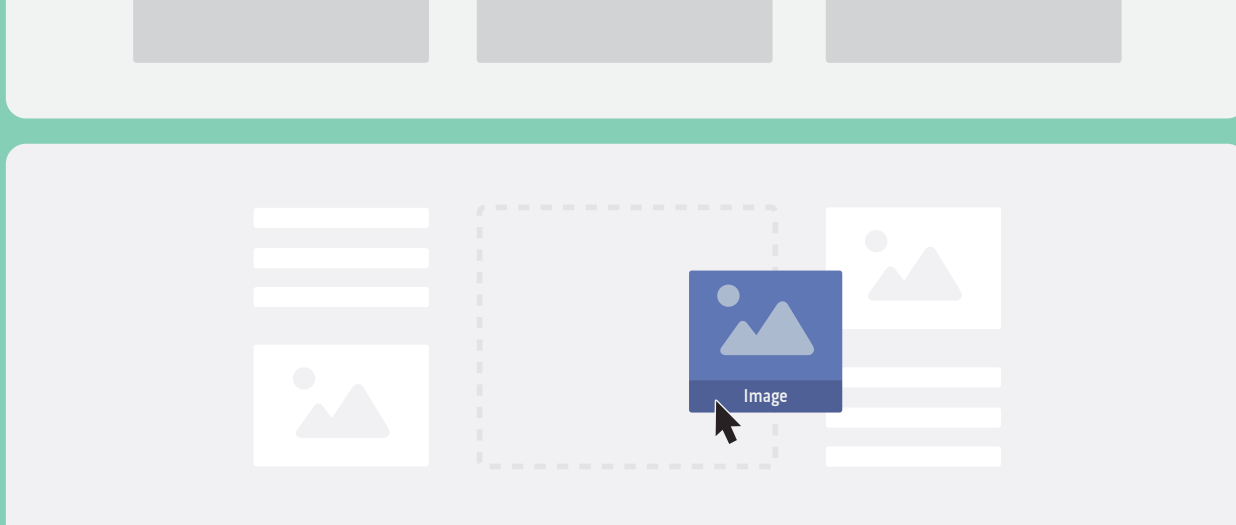

Let our design team create a completely unique, beautiful design just for your parish, diocese, school, or ministry.

3. Branding Package

Includes a custom design, PLUS on-site visit, professional photography, logo design, and much more!

Have fun editing your website

It's so easy to build a beautiful Catholic website with our tools, you'll actually have fun doing it.

Transform your homepage

No more "catch-all bulletin board" homepages. Leverage your site as a powerful tool for evangelization.

Organize your content

Create and design simple, balanced, and clear horizontal content regions we call sections.

Take control of your design

Achieve a consistent appearance for your website on desktop and mobile devices with a Sections Layout.

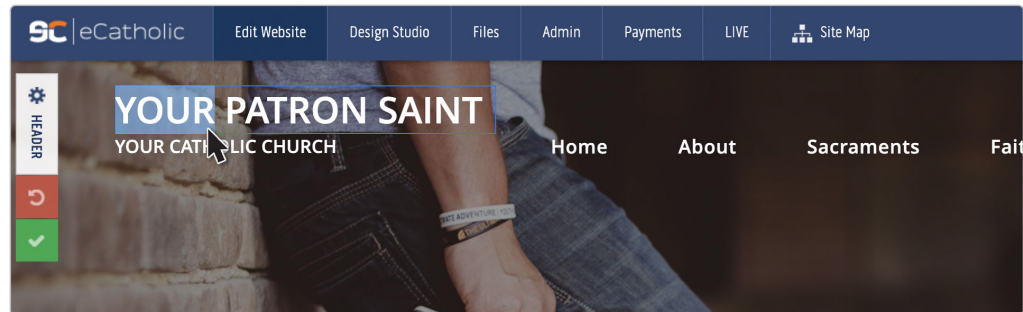

Update your website using remarkably simple tools

No coding required.

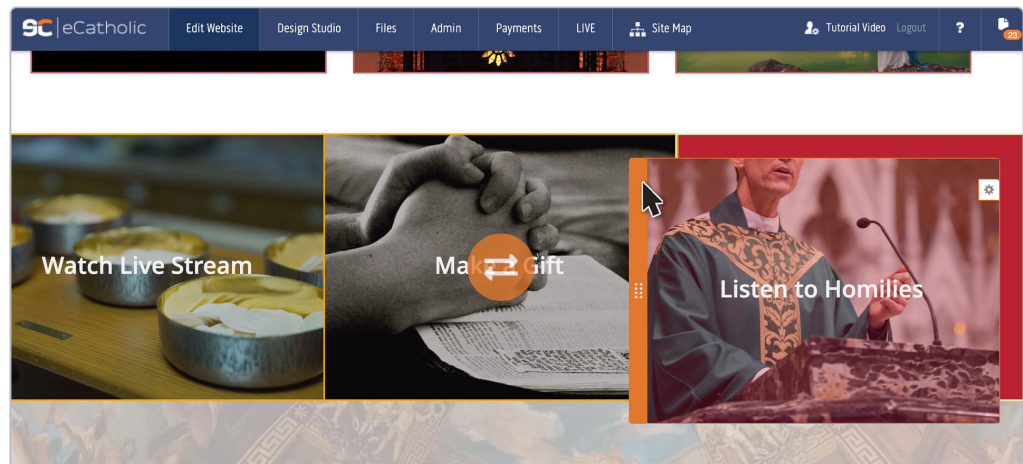

Inline Editing

No "back-end" interface. Just log in and edit your website exactly as you see it. Point, click, and edit.

Drag & Drop

Creating and moving content is as simple as drag-and-drop. It's quick, easy, and fun.

Work as a team

A website that's hard to update won't get updated. Now yours will.

Drafting and Publishing

It's easy to review changes to your website before they go live. When you add, edit, or delete content, your changes are saved as a draft. Simply publish or revert your drafts at any time!

Multi-level Admin Roles

Empower your team to help update your site. Whether it's an Author, Publisher, or Admin, you can assign the appropriate admin role to each person on your team.

Notification Center

Stop letting things fall through the cracks. The Notification Center clearly groups all unpublished content, online form submissions, and deleted files.

Constant Auto-Saving

There's no Save button. That's because any edits you make are automatically (and unnoticeably) saved. Constantly.

Achieve peace of mind

Rest easy knowing we've got your back.

SSL Encryption

All of our websites include free SSL (https), providing secure data encryption and better search engine ranking.

Scalable Cloud Servers

Our websites are hosted on secure, scalable cloud servers in managed data centers. You're in good hands.

Back-ups

Sleep well knowing that our servers - and your website - are backed up constantly in case of emergency.
