Safe Haven Sunday: Equipping the Family, Safeguarding Children

The family home should be a safe haven, but the inappropriate use of technology in the home deprives it of this role and is the greatest threat to the sanctity of marriages and families today. Pornography and other online threats are often one click away, and parents can feel overwhelmed without knowing how to best protect their children in our fast-paced digital world.

Next weekend, August 20-21, 2022, we will observe Safe Haven Sunday. This awareness day will provide access to practical resources that caring adults can use to protect themselves and our young people from online risks. Please join us with your prayers and presence as we prepare for this unique event. To learn more, please visit www.dosp.org/freedom-from-porn.
