

Why Should You Walk 4 Water?

- Bring awareness to the plight of millions in sub-Saharan Africa who lack access to clean water.
- Raise funds to bring sustainable clean water systems to remote African villages using innovative technologies.

What NOT having to walk for water means to the villagers:

- More time for children to devote to school.
- Time and resources for economic pursuits.
- Improved health of the villagers and their livestock.
- Safety from predators such as hyenas who share the old contaminated water holes.

Clearwater Central Catholic High School's Water 4 Mercy Service Chapter was established to engage students at CCC in the philanthropic and humanitarian efforts of the international non-profit organization Water 4 Mercy. Further, CCC students aim to engage their peers from the greater community who have a passion for helping others, a desire to make an impact, and an interest in gaining leadership skills.

Water 4 Mercy uses innovative, solar-powered, sustainable technologies to provide clean water, agriculture, and educational solutions to permanently end thirst, hunger, and poverty in our world.

WATER 4 MERCY

WALK 4 Water

Simulating the journey taken by millions around the world who walk for hours each day in search of water, Walk 4 Water is your opportunity to help us raise funds to bring clean, sustainable water systems to remote villages in Africa.

Participants have a choice between a 5K run on CCC's campus or a walk-a-thon around the stadium track and cross country course. Walkers can choose to carry weighted water buckets to further simulate a villager's walk for water.

Funds raised from the Walk 4 Water benefit the non-profit organization Water 4 Mercy by helping to bring sustainable, clean water solutions to remote villages in Africa.
