

Address Sharing Guidelines

At times elementary schools in the diocese request names and addresses of EC4 students from ECC entities and high schools request the same information from elementary schools in the diocese.

1. The school where the students are currently enrolled can send the information home from the elementary or high school to prospective students and families.
2. Sharing the name and address of students eligible for Catholic elementary or high schools within the diocese is allowed since it would be considered an internal use of the information.

The school from which the information is requested decides which option will be used. Option # 1 is preferred.
