

## **ACRE**

### **Assessment of Catechesis/Religious Education**

ACRE is a test provided by the National Catholic Education Association that assesses religious knowledge and attitudes. The Diocese of St. Petersburg requires it to be given in grades 5, 8, and 11. An order form will be sent to each school by the Office of Evangelization and Lifelong Faith Formation. Results are to be used in assessing the strengths and areas in need of growth for each school's religious education and formation program.
